## Detailed Line Items

HSN	Description	Quantity	Unit Price	GST Rate	Line Total
84137010	Trailer Fire Fighting Pump MFT 1800 D With Accessories	1.0	780,000.00	18.0%	780,000.00

### Analysis:

- The line item total calculation is consistent with the unit price and quantity.

## Taxes

Tax Type	Rate	Amount
IGST	18.0%	140,400.00

### Analysis:

- bullet The IGST amount is correctly calculated as 18% of the line item total ( $780,000.00 * 0.18 = 140,400.00$ ).
- bullet The total memo amount (920,400.00) is the sum of the line item total and the IGST amount ( $780,000.00 + 140,400.00 = 920,400.00$ ), indicating arithmetic consistency.

## Risk Summary

- bullet **Missing Billed GSTIN:** The `billed_gstin` is `null`. This is a significant anomaly as it prevents proper validation of the recipient and may impact input tax credit claims. The confidence score for this field is **0.0**.
- bullet **Unverified Dealer GSTIN:** The `dealer_gstin` is marked as `unverified` in the GST validations. While the GSTIN itself is present with high confidence, its verification status indicates a potential for it not being active or valid. The confidence score for `gst_validations` is **0.5**.
- bullet **Confidential Billed Name:** The `billed_name` is marked as "CONFIDENTIAL", which has a moderate confidence score of **0.5**. This should ideally be a specific entity name for better record-keeping.
- bullet **No Arithmetic Errors or Duplicates:** The `arithmetic_check` and `duplicate_check` both indicate that there are no such issues, which is positive.
- bullet **No Price Outliers:** The `price_outliers` check found no anomalies, suggesting that the unit price is within expected ranges based on internal checks.

## Next Steps

- bullet **Obtain Billed GSTIN:** The immediate priority is to obtain the correct and complete `billed_gstin` from the relevant department or source document. This is crucial for regulatory compliance and financial reconciliation.
- bullet **Verify Dealer GSTIN:** Initiate a process to verify the `dealer_gstin` (27AAACF8139N1Z6) through official GST portals to confirm its validity and active status.
- bullet **Clarify Billed Name:** If possible, seek to replace "CONFIDENTIAL" with the actual name of the billed entity to ensure accurate record-keeping.
- bullet **Record Keeping:** File Memo **270** with the associated Purchase Order **PO-5130010213** and ensure all documentation is complete, especially regarding the missing `billed_gstin`.
- bullet **Review Payment Terms:** Note the payment terms of "30 Days after receipt of Material" for timely processing.
